PROFILE INFO

A dedicated Electronics Engineering student (Computer Major) at King Mongkut's University of Technology North Bangkok with a strong foundation in both hardware and software. Experienced in developing IoT systems and mobile applications using Flutter and React. I am an adaptable fast-learner with excellent interpersonal skills, ready to collaborate and solve complex challenges within a dynamic team environment.

EXPERIENCE

■ 2023

National Science and Technology Development Agency (NSTDA)

Engineering Intern (Graphene Synthesis Innovation)

- Conducted research and practical operations in Graphene Synthesis, gaining hands-on experience in advanced material technology and systematic research processes.

■ 2021

Tha Lan-Zinc Limited Partnership

Engineering Intern (EDP Coating Process)

- Monitored industrial Electro Deposition Painting (EDP) processes and assisted in quality control for metal surface finishing.

EDUCATION

■ 2024 - PRESENT

King Mongkut's University of Technology North Bangkok (KMUTNB)

Bachelor's Degree in Electronics Computer Technology | GPAX 3.24

■ 2022 - 2023

ThaLuang Cementthaianusorn Technical College

Graduated with a Diploma in Industrial Electronics | GPAX 4.00

PROJECTS

Business Expense Tracking App

Developed a mobile application using Flutter for managing business finances and transaction history.

Automated Guided Vehicle: AGV

Engineered a warehouse robot with autonomous navigation and sensor-based obstacle avoidance systems.

Smart Home System

Designed and implemented an IoT-based home automation system for remote control of appliances.

TECHNICAL SKILLS

- Software: Flutter, React, Node.js, Java, JavaScript, Python, PHP, SQL, Git, Firebase
- Hardware: Microcontrollers (Arduino/ESP32), IoT Systems, AGV Robotics, Power Electronics, Circuit Design
